FOR IMMEDIATE RELEASE

Prototype ECDIS G8 in Classic mode

Adveto starts development of new ECDIS G8

”We are proud to announce that the development of our new ECDIS G8 has started” says Kent Sylvén, Managing Director of ADVETO. “The G8 is a completely new product but equipped with a “Classic Mode” with same controls and presentation as in our current ECDIS systems. The new ECDIS will also be compatible with all existing Adveto hardware as Keyboards, Control units, ESIG, SCU etc. Our current ECDIS-4000 will co-exist in parallel with the new G8 for many years ahead”

DNVGL will conduct all the necessary tests needed, in order to achieve the type approval for ECDIS. The ECDIS G8 will comply with the latest revisions of IEC-61174, 62288, 60945, 61162 and also the IHO-publications S-52, S-57, S-63, S-64 etc. A contract is already signed between Adveto and DNVGL.

More details:

- 1/A completely new Adveto Communication Unit will facilitate and ease communication with the G8.
- 2/Multitouch and pinch zoom will be supported by the new G8
- 3/G8 will have three versions as the current ECDIS-4000: BASE – STANDARD - EXTENDED

ADVETO

ADVETO Advanced Technology AB is a real pioneer in Electronic Navigation Systems. ADVETO started already in the mid 1980’s. ADVETO systems are used all across the world on all types of ships and by many National Maritime Administrations. They have become increasingly popular on board all kinds of vessels from High Speed Crafts to SOLAS vessels and especially at those operating in archipelagos. The majority of our users are still found in Scandinavia but with a rapidly growing number of users around the world.
