FOR IMMEDIATE RELEASE

Adveto and Jeppesen into renewed cooperation

Adveto has signed an OEM agreement with Jeppesen and will from now on be able to offer Jeppesen's whole range of products worldwide: the new Jeppesen FlatFee ENC's as well as the well-known Jeppesen's Professional+ charts. Adveto can now also offer services and modules like radar overlay, weather, anti-piracy module etc.

Picture above shows the Zones for the new Jeppesen FlatFee ENC's

“Adveto and Jeppesen is a good match and the collaboration makes sense. We have tested the Adveto ECDIS-4000J and it fulfills our MOPS standard” says Paul S. Elgar, OEM Strategic Business Manager at Jeppesen Norway AS.

“Adveto can now offer new highly competitive products together with the current product range already built into our type approved ECDIS-4000” says Kent Sylvén, Managing Director of ADVETO. “Adveto and C-MAP started our first collaboration as early as 1995. This collaboration was very successful and we have still many customers from that time”

Kent Sylvén continues:

“Our well known ECDIS-4000 in version J is up and running and is already presented to our first customers. We expect the first deliveries to be made already in January 2014”

ADVETO

ADVETO Advanced Technology AB is a real pioneer in Electronic Navigation Systems. ADVETO started already in the mid 1980's. ADVETO systems are used all across the world on all types of ships and by many National Maritime Administrations. They have become increasingly popular onboard High Speed Crafts and SOLAS ships especially with those operating in archipelagos. The majority of our users are still found in Scandinavia but with a rapidly growing number of users around the world.
